Timo Shower-Toilet chair 54006021

Timo Shower-toilet chair 54006035

#### Important!

The Timo must be serviced and inspected at least once a year.

Service and maintenance of the Timo is only permitted by qualified persons and using original spare parts.

Making changes to the construction could affect the safety of the Timo. This will also lead to Lopital's liability and warranty conditions being invalidated. As a result, the Timo will no longer comply with the regulation MDR (EU) 217/745 for medical devices.

Each inspection or repair must be entered to the log.

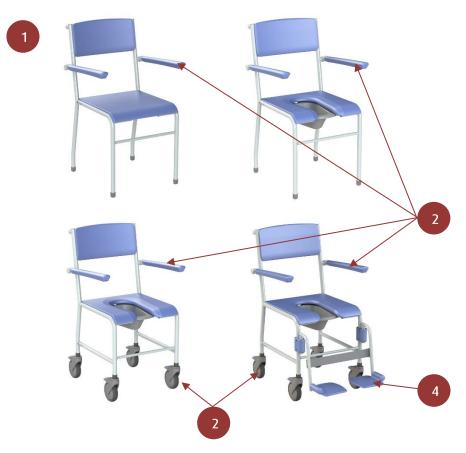

The average technical life of the Timo is 10 years, assuming it is cleaned daily and regularly maintained supplied.

### Manufacturer:

Lopital Nederland B.V. Laarakkerweg 9, 5061 JR Oisterwijk, the Netherlands T +31 (0)13 5239300 www.lopital.com, info@lopital.nl

## Required tools

- Touch- up pen Sikkens A77A2

- Visually check if all labels are present and legible.
  - Serialnumberlabel:
    - Is the serial number still legible?
    - Is the datamatrix still readable for a scanner?
    - Is the CE logo still visible?
  - Inspectionlabel:
    - Is the inspection date still legible?
  - QR label:
    - Is the QR code still readable for a QR scanner?
- Visually check all painted parts for damage and corrosion. Touch up if necessary.
- Check PUR parts for severe discolouration (Brown in particular) and damage.
- Are all the screws present and securely fitted? Also that of the guide?

For reasons of hygiene, it is strongly recommended to replace the seat and back once every 5 years.

#### Present:

- Footrests (Only for 54006035) (not a failure item)

# 2. Wheels

Month	12	24	36	48	60	72	84	96	108	120
	C	C	C	C	C	C	C	C	C	C

# Required tools

- Allen key 8mm

Figuur 2 Wheel exploded

- Check the attachment of the wheel (Tolerance)
- Check freewheel function + brakes.
- Do all four the wheels touch the floor on a flat surface? If not, check the chair right course.
- Brake lip intact?
- Check the tread.

Replace the wheels if they are damaged or worn.

# 3. Armrests

Month	12	24	36	48	60	72	84	96	108	120
	C	C	C	C	C	C	C	C	C	C

- Inspect its functioning, and check for any damage, corrosion.
- Always treat corossion.
- Are the armrests evenly positioned?
- Slide PUR back if necessary.
- The stainless-steel (A2) screws and M8x16 DIN912 quality12.9. should always be replaced by a Super Duplex 4529 screw M8x16 (Order this screw by Lopital B.V. Art.no. 75005640).
- Fastly secure screws. (See figure 4)
