

Vienna

Ergonomic care, efficient space, elevated dignity

6500 5030

Vienna Deluxe wall-mounted dressing table

The Vienna range (models 5030, 5035, 4025) redefines the modern care environment with its intelligent wall-mounted design and compact footprint. By anchoring the support frame to the wall, Vienna frees up essential floor space – ideal for tight washrooms or care rooms – while delivering a robust and secure platform. Its electrically height-adjustable surface can be precisely positioned to match wheelchairs or facilitate safe transfers, improving workflow and client mobility.

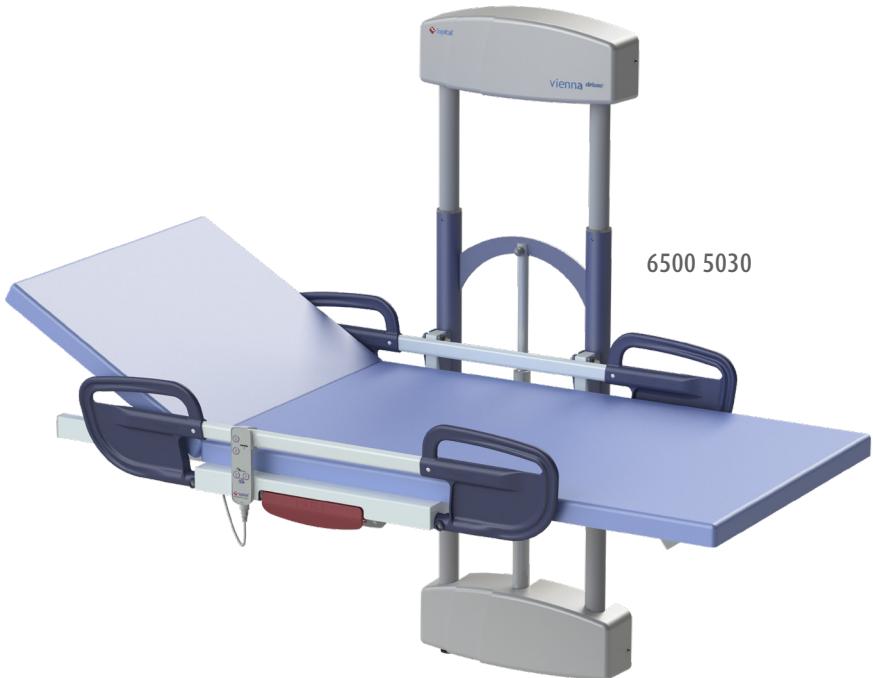

This series features smooth backrest adjustment (for 5030-type models) and intuitive folding mechanisms for quick clearances when not in use. With materials selected for optimal strength and ease of maintenance, Vienna delivers a high-performance and low-profile solution tailored for demanding care settings. Its versatile integration with lifts, sliding aids, and other assistive devices ensures Vienna becomes a central, dependable element in any hygiene or dressing routine.

Ergonomic Use. Height-adjustable design and smooth positioning reduce physical strain, ensuring comfortable and efficient care at any level.

Reliable & Long-Lasting. Built to last with a 60-month warranty for long-term reliability and peace of mind.

Antibacterial Coating & Corrosion-Resistant. The antibacterial coating with silver-ion supports hygiene and infection control, while the corrosion-resistant frame with smooth surfaces ensures durability and easy cleaning.
