## hygiene solutions for easy and dignified life

Lopital is the specialist in hygiene and care solutions that make life easier and more dignified. With Dutch innovation and craftsmanship, we create products that combine comfort for the client with ease of use for the caregiver. Our focus on quality, durability, and antibacterial protection ensures safe and effortless care – **every single day.**

**60-months warranty:** built for daily care and backed by a 60-month warranty, offering a dependable performance.

**Hassle-free maintenance:** effortless care with Plug&Play functionality for instant setup and hassle-free use.

**Antibacterial coating:** effective long-term protection from germs and bacteria thanks to silver ions.

**Designed for sustainability:** reduced carbon footprint during the entire lifecycle of the product.

**Recycled materials:** made of up to 75% recycled aluminium.

### Guaranteed Quality

All our products are designed and manufactured in the Netherlands, ensuring top-notch quality and craftsmanship. And we take great pride in this. Furthermore, we provide a 60-month warranty on all our products, ensuring your peace of mind and satisfaction with your purchase.

### StatMeter®

The StatMeter is an online tool, developed by LOCOMotion and Lopital, that helps caregivers assess their static load, raise awareness, and provides tips to prevent strain and absenteeism.

Only the best products.  
Quality and safety always  
come first.

# Shower toilet chairs

At Lopital, we believe that safe and dignified care starts with the right support — for both client and caregiver. Our shower-toilet chairs are designed to provide comfort and independence for clients, while at the same time reducing physical strain for caregivers.

Traditional showering solutions often force caregivers into awkward postures, leading to static back and shoulder strain. Lopital addresses this challenge with ergonomically designed, height-adjustable shower-toilet chairs. These chairs not only create a safer and more comfortable experience for clients, but also help prevent physical overload for caregivers.

By combining safety, comfort, and ease of use, Lopital shower-toilet chairs contribute directly to healthier working conditions in healthcare, supporting a sustainable balance between high-quality care and caregiver well-being.

Well-developed hygiene products  
that allow safe and comfortable showering.

All of the aids produced by Lopital fulfil the following norms for medical products Class I (MDR (EU) 2017/745)

# Shower Trolleys & Stretchers

For clients who need to be cared for in a lying position, Lopital shower trolleys and stretchers provide a safe and comfortable solution. They ensure dignified hygiene care while creating ease of movement for caregivers.

Traditional methods often demand heavy lifting and awkward postures. Our mobile and wall-mounted stretchers are designed to minimize transfers and reduce physical strain, allowing caregivers to work closer to the client in an ergonomic way. Height-adjustable options – both hydraulic and electric – make it possible to align the stretcher with the bed for smooth, horizontal transfers.

By reducing unnecessary lifting and supporting active client participation where possible, Lopital shower trolleys and stretchers contribute to safer, more efficient care. The result: more comfort and independence for clients, and healthier working conditions for caregivers.

# Make static load visible with the StatMeter

The **StatMeter** is a free online tool developed by **LOCOMotion** and **Lopital** that helps healthcare professionals gain insight into their own physical strain. By answering just a few questions, you will immediately receive practical tips and tools to prevent complaints.

- ⌚ Individual or team-based completion
- ⌚ Personal risk analysis and improvement ideas
- ⌚ No storage of personal data

*“You don’t feel it right away. It creeps up on you. Until it’s too late.”* – Nico Knibbe, movement scientist at LOCOMotion

## From insight to action – the 3x3 improvement plan

After completing the StatMeter, improvement ideas immediately arise. Each employee chooses three personal actions that he or she will focus on. The team then jointly determines three department-wide improvements. Together, these actions form **the 3x3 improvement plan**.

## Getting started with healthy working practices in healthcare

Whether you are an ergonomic coach, team leader, or caregiver, StatMeter helps you start the conversation about healthier working. A small investment in time, a big impact on job satisfaction and employability.

**StatMeter®**
